## Business Policies and Contacts

### Business Policies

#### **C Small Business Regulatory Enforcement Fairness Act (SBREFA) of 1996**

This Act (Title II of Public Law 104-121) was signed into law by President Clinton on March 29, 1996 in order to accomplish several key objectives: (1) to encourage small businesses to participate more in the Federal regulatory process; (2) to require Federal agencies to become more responsive to small business inquiries relating to regulatory and

reporting requirements; (3) to promote greater cooperation between small businesses and government agencies through less punitive and more solution-oriented approaches to environmental compliance; and (4) to make federal agencies more accountable for excessive enforcement actions by permitting small businesses to go to court to be awarded attorney's fees and costs.

For more information about the Small Business Regulatory Enforcement Fairness Act (SBREFA), access the following Internet address:  
<http://www.sba.gov/regfair/overview.html/>.

### **C Final Policy on Compliance Incentives for Small Businesses**

This policy implements Section 323 of the Small Business Regulatory Enforcement Fairness Act (SBREFA) of 1996. This Policy, effective June 10, 1996, is intended to promote environmental compliance among small businesses by providing them with special incentives to participate in compliance assistance programs or to conduct environmental audits, and to help them promptly correct violations. The federal or state governments can waive all or a portion of a penalty when a violation is (1) identified through government-supported on-site compliance assistance or through an environmental audit, (2) disclosed, and (3) corrected. Under this policy, a "small" business is defined as having 100 or fewer employees across all facilities and operations owned by the entity. There is no limitation on the amount of pollutants produced by the small business.

You can obtain more information on this policy and how it may apply to your business by reviewing the final policy in the Federal Register [61 FR 27984 (June 3, 1996)] or by accessing EPA's Enviro\$en\$e site at: <http://es.inel.gov/oeca/smbusi.html/>.

### **C Incentives for Self Policing: Discovery, Disclosure, Correction and Prevention of Violations Policy**

This policy mitigates or eliminates penalties for all entities, including small and large businesses, who voluntarily discover, disclose and correct violations of environmental regulations by conducting environmental audits or implementing systematic procedures reflecting the facility's due diligence.

You can obtain additional information on this self-policing policy by reviewing the final policy in the Federal Register [60 FR 66706-66711 (December 22, 1995)] or by accessing EPA's Environ\$en\$e site at: <http://es.inel.gov/oeca/ore/aed/comp/acomp/a26.html/>.

### **C The 507 Small Business Enforcement Policy**

Section 507 of the 1990 Clean Air Amendments required the States to establish Small Business Stationary Source Technical and Environmental Compliance Assistance Programs. Because of State concerns that small businesses would not ask for compliance assistance if violations resulted in enforcement actions, the EPA issued the "Enforcement Response Policy for Treatment of Information Obtained Through Clean Air Act Section 507 Small Business Assistance Programs (August 12, 1994)." This policy was designed to encourage small businesses to seek compliance assistance from the States by offering two types of incentives. The first incentive allows small businesses that receive compliance assistance up to 90 days, with the possibility of an additional 90 day

extension, to correct any violations discovered under the Small Business Assistance Program (SBAP). The second incentive offers compliance assistance on a confidential basis, as long as: a) the State can investigate and/or take enforcement action independent of the Section 507 program if violations are discovered; and b) confidential assistance can only be offered through SBAPs that operate independently of the state's regulatory enforcement program.

You can obtain additional information on Section 507 by accessing EPA's Environment sites at: <http://es.inel.gov/oeca/ccsmd/file3.html> or <http://es.inel.gov/oeca/ccsmd/file11.html>.

This report helps food companies understand the industry's political, legal, and regulatory environment in every state. The report covers topics such as food labeling and standards, food packaging, food safety, food taxes, product liability, and school lunch programs. The report also helps the strategic planning of companies in the food industry to operate and site their plants most efficiently and help shape legislation affecting the food processing industry.
